District may provide notice orally, either in person or by telephone.

1.1.4.2. Notice from Customers:

Customer shall make notifications to District in writing delivered or mailed to District at: 24750 Sand Canyon Road, Tehachapi, CA 93561. Unless notice in writing is specifically required by law, rule, regulation or ordinance, Customer may alternatively make notice in person or by telephone to District at its office during normal business hours or by email to: customerservice@qvwed.org.

1.1.5. Change in Customer's Equipment, Operations or Land Use:

Customer making any material change in the size, character, or extent of the equipment, operations, or nature of land use such as using water for commercial activities where water has been previously used for residential purposes only, shall immediately give written notice to District of the nature and extent of the change.

1.1.6. Resale of Water:

No Customer, except for a permitted water purveyor by written agreement with the District, shall resale water received from the District, nor shall such water be delivered to a property other than that specified in the application for service. When property with a service connection is divided, the service connection shall be considered as belonging to the lot or parcel of land which it directly enters. Except for contiguous parcels under singular ownership to which service is supplied exclusively for landscape or irrigation purposes, a service connection shall not be used to supply water to any parcel of land other than the parcel on which the service connection is located and for which all relevant connection fees have been paid.

1.1.7. Continuity of Service:

The District expressly reserves the right to restrict, curtail, allocate or apportion District water supplies as necessary, in the sole discretion of the District.

1.1.7.1. Emergency Interruptions:

The District will make all reasonable efforts to prevent interruptions to service and, when such interruptions occur, will endeavor to re-establish service with the shortest possible delay consistent with the safety of the District's customers, employees and the general public.

1.1.7.2. Scheduled Interruptions:

Whenever the District finds it necessary to schedule an interruption to its service, it will, where feasible, notify affected Customers, stating the approximate time and anticipated duration of the interruption.

1.1.7.3. Apportionment of Supply During Times of Shortage:

During times of threatened or actual water shortage, the District will apportion its available water supply among its

Prop 84 Update

August 22, 2021

Well Phase:

Availability of pump equipment is requiring a review of components to be installed in the new well to determine acceptable substitutions. Franklin Pumps has a single distributor for the western US and District has had an issue with the distributor not being willing to sell to District, only to well contractors. Abundant Water Wells has suggested Grundfos pumps which has a pump with similar specifications. Options for drop pipe have also been discussed and we are waiting for a response regarding availability of schedule 120 PVC drop pipe.

Reservoir Phase:

District, REVE and Cora have reached agreement on change order requests. Change Order has been submitted to WaterBoards for approval. Payment has been made to Cora for progress payment request 8. REVE is reviewing requirements for releasing retention.

Treatment Plant:

District, REVE and E&EC are working to resolve change orders and close out treatment phase. After discussions with E&EC, PureAqua and REVE, it was suggested that top layer of filter media may be causing plugging of diffuser and that about 1-2 inches of media should be removed. District staff opened filters and vacuumed about 1 inch of media. One backwash has been completed on each filter with no issues. A second backwash was completed on filter 1, again with no issue. A second backwash on filter 2 indicated some plugging but backwash completed satisfactorily. Staff will monitor subsequent backwashes.

District Construction Activities:

District staff has been working on completion of west well along with optimizing filtration activities. District staff completed sanitary seal for new well. Electrical enclosures for connection of power and data cables have been installed and necessary cabling installed along with conduit from enclosures to well.

Financial Update:

Claim 42 has been submitted to WaterBoards for review and payment.

SYSTEM STATUS

August 2021

- Montclair well remains the sole source for entire system.
- For the month of August to date (8/20/21), Montclair well is averaging 9.13 hours per day supplying an average of 17,965 gallons per day. Average pumping for July was 16,953 gallons per day.
- Montclair well continues to function normally with no issues. Pumping and static levels continue to drop. On July 31st, the static water level was 256 feet. Pumping water level on August 19th was 271 feet. As of August 20th, static water level is 258 feet.
- In July 1680 gallons was flushed at the south Olympics blow-off in preparation of collecting a bacteriological sample from the repaired Olympics line prior to placing line in-service.
- Monthly bacteriological sampling for August was completed in compliance with the combined system BSSP. All samples were negative for coliform and e. coli.
- Fe and Mn samples continue to indicate N/D levels post filtration.
- Approximately 1,000 gallons of water was lost to leaks in July.
