## RESOLUTION NO. 02-2022

### A RESOLUTION OF THE BOARD OF DIRECTORS OF QUAIL VALLEY WATER DISTRICT FINDING THE EXISTANCE OF A WATER SHORTAGE EMERGENCY

**WHEREAS**, the adoption and enforcement of a comprehensive water conservation program will allow the Quail Valley Water District to delay or avoid declaring a water shortage emergency pursuant to Water Code section 350; and

**WHEREAS**, Southern California has continued to receive below average rainfall precluding sufficient groundwater recharge; and

**WHEREAS**, a reliable minimum supply of potable water is essential to the public health, safety and welfare; and

**WHEREAS**, careful water management that includes active water conservation measures not only in times of drought, but at all times, is essential to ensure a reliable minimum supply of water to meet current and future water supply needs.

**WHEREAS**, the water supply of Quail Valley Water District is entirely reliant on well water; and

**WHEREAS**, the well currently providing the water supply of Quail Valley Water District QVWD East & West Combined Water System, System Number 1503226 has demonstrated a continued drop in both pumping and static water levels through low demand winter months with no recovery indicating the water resource is an over-draft condition; and

**WHEREAS**, the continued over-drafting of the well will result in the well no longer producing water in sufficient quantities for human consumption, sanitation, and fire protection to the consumers served by the water system; and

**WHEREAS**, the watershed providing water to the well has not received adequate precipitation to recharge the well.

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Directors, as follows:

A STATE OF CALIFORNIA PUBLIC AGENCY

# QUAIL VALLEY WATER DISTRICT

BOARD OF DIRECTORS

- Mike Biglay
- Jean Grodewald
- Rita Leonard-Phillips
- Enrique Lopez
- Jimmy Sweany

1. A Stage 2 Water Supply Shortage Condition affecting the QVWD East & West Combined Water System does currently exist; and
2. To delay or prevent the declaration of a Water Shortage Emergency, the mandatory conservation measures applicable to a Stage 2 Water Supply Shortage Condition shall take effect on the tenth day after the date the shortage condition is declared. Within five days following the declaration of the shortage condition, the District shall post a copy of the resolution in a public place within the District. A copy of the resolution shall also be included with the next regular billing statement.
3. This water shortage emergency shall be presumed to continue unchanged unless and until a contrary finding is made by the board by resolution or ordinance.
