# QUAIL VALLEY WATER DISTRICT *NEWS*

## BOARD OF DIRECTORS

Mike Biglay  
Vacant  
Enrique Lopez  
Jimmy Sweany  
Scott Woehrer

August 2, 2022

## DROUGHT UPDATE

As the drought continues, the District is continuing to operate under Stage 2 water restrictions and our water system continues to supply our needs but our well water levels continue to diminish. The new Montclair West Well has been placed in operation and is now supplying nearly 100% of our water while the Montclair East Well is now in stand-by service as our pumping water levels are reaching the pump intake resulting in the pump beginning to break suction and pump air. District staff is coordinating with our well contractor to return to the site and begin the rehabilitation of the East Well and the new pump will be set at a lower level to enable returning the well to service.

The District is continuing to explore additional water resources but the options are very limited as imported water is not currently practical leaving us with only rainfall in our watershed to replenish our groundwater supply.

Your continued conservation efforts are vital to ensure our water supply remains adequate to serve our needs until we receive much needed rain.

## BOARD OPENING

At the July Board Meeting Directors appointed Scott Woehrer to fill the seat vacated by the resignation of Director Leonard-Phillips leaving one vacancy to fill.

If you are interested in serving as a Director, please contact Dawnette in the District Office during business hours at (661) 822-1923 or [secretary@qvwd.org](mailto:secretary@qvwd.org)

## CONDOLENCES

It is with heavy hearts that we inform you of the passing of retired service worker Dan Casteel. Dan was an integral part of the District and was instrumental in our ability to operate and maintain the water system as well as completion of the Arsenic Remediation Project. Dan will be sorely missed.

## NEW SERVICE WORKER

Please join us in welcoming Matt Lucas to our maintenance team. Matt will be working with Izzy performing system maintenance and repairs.

## NEXT BOARD MEETING 8/27/22

Monthly board meetings are held the last Saturday of each month at 8:30 AM at the District Office. Our next meeting will be on August 27, 2022. We highly encourage all of our water users and any one else interested to attend board meetings and learn the processes involved in operating your water district.
