QUAIL VALLEY WATER DISTRICT *NEWS*

BOARD OF DIRECTORS

Mike Biglay
Jean Grodewald
Rita Leonard-Phillips
Enrique Lopez
Jimmy Sweany

July 6, 2022

DROUGHT UPDATE

While we recently received some much needed moisture, much more will be necessary to reverse the current drought. The District is continuing to operate under Stage 2 water restrictions and our water system continues to supply our needs but our well water levels continue to diminish and is very close to dropping to the level of our pump so your conservation efforts are vital (and very much appreciated)!

ARSENIC REMEDIATION PROJECT UPDATE

Another milestone has been reached with the recent approval from WaterBoards to allow the use of the new Montclair-West Well! While this well produces water from the same fracture zone as the Montclair-East well, and doesn't supply additional water, it does provide source redundancy and will allow us to finally take the East well out of service long enough to inspect and re-habilitate the existing well. Once the existing well has been cleaned and new pumping equipment installed, the arsenic remediation project will be coming to a close! It has been a long and sometimes difficult project but the improvements to our water quality and system dependability have been immense!

BOARD OPENING

With the recent resignations of Director Grodewald and Director Leonard, we have two open seats on the Board of Directors. If you are interested in serving your community and being involved with the operation of your water system, please contact Dawnette in the District Office during business hours at (661) 822-1923 or secretary@qvwd.org

PART TIME HELP WANTED

With the upcoming retirement of General Manager Hardenbrook, the District is recruiting for a part-time or full-time service worker to assist Assistant General Manager Villafana with maintenance and repair activities. If you, or someone you know may be interested, please contact Dawnette in the District Office during business hours at (661) 822-1923 or secretary@qvwd.org

NEXT BOARD MEETING 4/30/22

Monthly board meetings are held the last Saturday of each month at 8:30 AM at the District Office. Our next meeting will be on July 30, 2022. We highly encourage all of our water users and any one else interested to attend board meetings and learn the processes involved in operating your water district.
